The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of ICAO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Les appellations employées dans cette publication et la présentation des données qui y figurent n'impliquent de la part de l'OACI aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites.

Las denominaciones empleadas en esta publicación y la forma en que aparecen presentados los datos que contiene no implican, de parte de la OACI, juicio alguno sobre la condición jurídica de ninguno de los países, territorios, ciudades o áreas, o de sus autoridades, ni respecto de la delimitación de sus fronteras o límites.

Употребляемые обозначения и изложение материала в настоящем издании не означают выражения со стороны ИКАО какого бы то ни было мнения относительно правового статуса страны, территории, города или района, или их властей, или относительно делимитации их границ.

FOREWORD

This document contains designators for aircraft operating agencies and for authorities and services associated with international aviation. The designators currently consist of:

- a) three-letter designators intended for use on the international aeronautical telecommunications service;
- b) telephony designators for aircraft operating agencies and for authorities and services operating aircraft, which may be used as appropriate.

In accordance with a decision of the ICAO Council, three-letter designators are being applied for all current purposes with effect from 25 October 1987. This document contains details of the three-letter designators which have been reserved for use by aircraft operating agencies, aeronautical authorities and services at the time of publication.

Three-letter designators may be used following the Location Indicator as the fifth, sixth and seventh letters of Addressee Indicators followed by the filler letter "X", or by a letter representing a department or division within the organization addressed, (see Annex 10 — *Aeronautical Telecommunications*, Volume II, 4.4.3.1.2) in the Shortened Address, Address, Origin and/or text parts of AFTN messages, (the filler letter need not be repeated in the text part of the message). The three-letter designator may also be used in the aircraft identification as used in the Flight Plan and associated messages (see *Procedures for Air Navigation Services — Air Traffic Management* (PANS-ATM, Doc 4444)).

For the convenience of message originators, the document also includes the postal and telecommunications addresses (commercial and aeronautical) of government civil aviation authorities.

Note.— The aeronautical telecommunications addresses in Part 4 include the appropriate three-letter designators and the filler letter "X", unless otherwise indicated.

New editions of this document will be issued from time to time.

Any additions, deletions, omissions or discrepancies should be communicated to the Secretary General, ICAO, 999 University Street, Montreal, Quebec, Canada H3C 5H7.

RULES FOR THE REGISTRATION OF OR CHANGE IN DESIGNATORS

1. General

1.1 Requests for the registration of or change in a three-letter or telephony designator will only be recognized by ICAO when received from the State having jurisdiction over the aircraft operating agency, aeronautical authority or service concerned. Such requests should be addressed to the Secretary General of ICAO.

1.2 The same designator will not be registered for more than one aircraft operating agency, aeronautical authority or service.

1.3 No more than one three-letter or telephony designator will be registered for each aircraft operating agency, aeronautical authority or service.

1.4 When a designator is no longer required, ICAO should be informed immediately. Any such designator so released will not be reassigned until a period of at least 60 days has elapsed.

1.5 Each Contracting State should review, at least annually, all of the designators and associated information in Doc 8585 for which it is responsible and advise ICAO of any changes which should be made to this document in order to bring it up to date.

1.6 The rules governing the registration or change of three-letter and telephony designators are as follows.

2. Three-letter designators

2.1 Three-letter designators are registered only for:

- a) aircraft operating agencies engaged in air transport operations which in the opinion of the State of jurisdiction have a need for an exclusive designator;
- b) governmental authorities and services which use and/or provide air navigation, communication and other facilities and services for international civil aviation;
- c) organizations, other than governmental organizations, which provide services for international civil aviation.

2.2 a) A three-letter designator should reflect to the maximum extent practicable, the name of the aircraft operating agency or its telephony designator, or the aeronautical service for which it is requested.

b) Designators for governmental organizations which provide civil aviation facilities and services are allocated only in the Y series.

c) Designators for governmental organizations which provide air traffic services are allocated only in the Z series (except ZXA to ZXZ).

d) The following designators are reserved for national allocation by Contracting States to national authorities and services and will not be used for other assignments by ICAO. The State may select and use any of these without referring the matter to ICAO:

YEY, YGY, YHY, YIY, YJY, YKY, YQY, YRY, YUY, YVY and ZXA to ZXZ groups.

2.3 The following three-letter designators when appearing in the Shortened Address, the Address and/or in the Origin parts of an AFTN message, must be complemented with further identification of the aircraft operating agency, aeronautical authority or service concerned, in the beginning of the Text part of the message (see 4.4.3.1.2.1, and 4.4.3.1.2.2 of Annex 10, Volume II).

YXY – Military Service or organization

YYY – Aircraft operating agencies and organizations not allocated a three-letter ICAO designator on an exclusive basis

ZZZ – Aircraft in flight.

2.4 In the registration of three-letter designators the following restrictions will apply:

- a) to avoid conflict with the AFTN Start-of-Message Signal, combinations with CZ or ZC will not be used;
- b) to avoid conflict with the AFTN End-of-Message Signal, combinations with NN will not be used;
- c) PAN and SOS will not be assigned;
- d) to avoid confusion with communications service codes, the following three-letter combinations should not be used: QTA and SVC;
- e) to avoid potential AFTN routing problems:
 - i) no further allocation of aircraft operating agency designators will be included in the Y and Z series; and
 - ii) no further allocation of any designators will be included in the Y series and ZAA to ZIZ, ZOA to ZUZ and ZYA to ZZY groups.

2.5 States which have introduced the Predetermined Distribution System for AFTN messages should inform each State from which AFTN messages for predetermined distribution are to be received of the three-letter designators to be used for addressing such messages. These designators are not listed in this document.

Note.— For details, see Annex 10, Volume II, 4.4.14.5 and Appendix 5 to Annex 15 — Aeronautical Information Services.

3. Telephony designators

3.1 Telephony designators for aircraft operating agencies may be used as part of the aircraft radiotelephony call sign followed by the flight identification in radiotelephony communications, in accordance with the ICAO Radiotelephony Procedures (Annex 10, Volume II, 5.2.1.7.2 refers). Example: "AEROFLOT 301".

3.2 In the registration of telephony designators the following rules will apply:

- a) the telephony designator should resemble the name of the aircraft operating agency or its function and be distinct and dissimilar from any other telephony designators in Doc 8585. Ideally it should reflect correlation between the three-letter designator, the telephony designator and the name of the aircraft operating agency or its function (examples: ARO – ARROW – Arrow Aviation; RAJ – RAJI – Raji Airlines);
- b) in order to reduce the length of transmission the telephony designator should be brief, comprising if possible one word of two or three syllables. It should not exceed two words;
- c) three-letter designators may not be used in phonetic form as telephony designators. However, telephony designators of long standing (such as KLM or TWA) may be retained, provided that an acceptable alphabetic representation is used (example: KAY-ELL-EMM); and
- d) the telephony designator should be easily and phonetically pronounceable in at least one of the following languages: English, French, Russian, Spanish.

Note.— Resolution of similar sounding call-signs:

- 1) *In the interests of safety, simple procedures should be developed by States and aircraft operating agencies for detecting, reporting and eliminating those call signs which, because of their similarities to other call signs, may cause confusion or mistakes in identification. When call sign similarity difficulties concern the telephony designator, the civil aviation authority concerned should coordinate efforts to resolve the problem. This may require submission to ICAO for a change in one or both of the conflicting telephony designators. Cooperation between civil aviation authorities is required when the aircraft operating agencies are from different States.*
- 2) *In the selection of the flight identification number the following is recommended:*
 - a) *flight numbers should be kept as short as possible and usually be limited to three figures;*
 - b) *flight numbers should be selected bearing in mind the flight numbers already in use by other operating agencies in the intended control environments; and*
 - c) *when practicable flight numbers other than those ending in a zero or five should be used.*

AVANT-PROPOS

Le présent document contient les indicatifs des exploitants d'aéronefs et des administrations et services s'intéressant à l'aviation internationale. Ces indicatifs comprennent actuellement :

- a) des indicatifs à trois lettres à utiliser dans le service international des télécommunications aéronautiques ;
- b) des indicatifs téléphoniques des exploitants d'aéronefs et des administrations et services exploitant des aéronefs, à utiliser selon les besoins.

Conformément à une décision du Conseil de l'OACI, les indicatifs à trois lettres sont appliqués à toutes fins courantes depuis le 25 octobre 1987. Le présent document contient des indicatifs à trois lettres qui ont été réservés aux exploitants d'aéronefs et aux administrations et services aéronautiques au moment de la publication.

Les indicatifs à trois lettres peuvent figurer à la suite des indicateurs d'emplacement comme cinquième, sixième et septième lettres des indicateurs de destinataire, suivies de la lettre de remplissage « X » ou d'une lettre désignant un service ou une subdivision de l'organisme auquel est adressé le message (voir Annexe 10 — *Télécommunications aéronautiques*, Volume II, § 4.4.3.1.2) dans l'Adresse raccourcie, l'Adresse, l'Origine ou le Texte des messages RSFTA (il n'est pas nécessaire de répéter la lettre de remplissage dans le texte du message). L'indicatif à trois lettres peut aussi figurer dans l'identification de l'aéronef utilisée dans le plan de vol et dans les messages connexes (voir *Procédures pour les services de navigation aérienne — Gestion du trafic aérien* [PANS-ATM, Doc 4444]).

Il facilite la tâche des expéditeurs de messages en donnant aussi les adresses postales et de télécommunications (dans le service public et dans le service aéronautique) des administrations de l'aviation civile.

Note.— Sauf indication contraire, les adresses de télécommunications aéronautiques mentionnées dans la Partie 4 sont constituées des indicatifs à trois lettres appropriés et de la lettre de remplissage « X ».

De nouvelles éditions du présent document seront publiées de temps à autre.

Prière de signaler au Secrétaire général de l'OACI, 999, rue University, Montréal, Québec, Canada H3C 5H7, toute adjonction, suppression, omission ou contradiction.

RÈGLES APPLICABLES À L'ENREGISTREMENT ET À LA MODIFICATION DES INDICATIFS

1. Généralités

1.1 Les demandes d'enregistrement ou de modification d'un indicatif à trois lettres ou d'un indicatif téléphonique ne seront prises en considération par l'OACI que lorsqu'elles sont présentées par l'État dont relèvent l'exploitant d'aéronefs, l'administration aéronautique ou le service aéronautique intéressés. Ces demandes doivent être adressées au Secrétaire général de l'OACI.

1.2 Les indicatifs qui font double emploi ne seront pas enregistrés.

1.3 Un seul indicatif à trois lettres ou un seul indicatif téléphonique sera enregistré pour chaque exploitant d'aéronefs, administration aéronautique ou service aéronautique.

1.4 L'OACI doit être avisée dès qu'un indicatif n'est plus requis. Aucun indicatif ainsi libéré ne sera attribué de nouveau avant l'expiration d'un délai minimal de 60 jours.

1.5 Chaque État contractant devrait examiner, au minimum une fois par an, tous les indicatifs et tous les renseignements correspondants figurant au présent document dont il a la charge et notifier à l'OACI toute modification qui doit être apportée à ce document pour le mettre à jour.

1.6 Les règles applicables à l'enregistrement ou à la modification des indicatifs à trois lettres et des indicatifs téléphoniques sont les suivantes.

2. Indicateurs à trois lettres

2.1 Les indicateurs à trois lettres sont enregistrés uniquement au nom :

- a) d'exploitants d'aéronefs qui assurent des vols de transport aérien et qui, de l'avis de l'État compétent, ont besoin d'indicateurs exclusifs ;
- b) d'administrations et de services gouvernementaux qui utilisent ou mettent en oeuvre des installations et services de navigation aérienne, de communication et autres à l'intention de l'aviation civile internationale ;
- c) d'organismes non gouvernementaux qui assurent des services à l'aviation civile internationale.

2.2 a) Un indicatif à trois lettres devrait exprimer, dans toute la mesure possible, le nom de l'exploitant d'aéronefs (ou son indicatif téléphonique), ou le nom du service aéronautique, pour lequel il est demandé.

b) Les indicateurs de la série Y sont attribués uniquement aux organismes gouvernementaux qui mettent en oeuvre les installations et services d'aviation civile.

c) Les indicateurs de la série Z (ZXA à ZXZ exceptés) sont attribués uniquement aux organismes gouvernementaux qui assurent des services de la circulation aérienne.

d) Les indicateurs ci-après sont réservés en vue d'une attribution à l'échelle nationale par les États contractants à leurs administrations ou services, et ils ne seront pas attribués à d'autres fins par l'OACI. Chaque État peut choisir et utiliser l'un ou l'autre de ces indicateurs sans consulter l'OACI :

Groupes YEY, YGY, YHY, YIY, YJY, YKY, YQY, YRY, YUY, YVY et ZXA à ZXZ.

2.3 Les indicateurs à trois lettres ci-après, lorsqu'ils figurent dans l'Adresse raccourcie, l'Adresse ou l'Origine d'un message RSFTA, doivent être complétés par le nom ou l'identification de l'exploitant d'aéronefs, de l'administration aéronautique ou du service aéronautique en cause, inséré au début du Texte du message (voir Annexe 10, Volume II, § 4.4.3.1.2.1 et 4.4.3.1.2.2).

YXY – service ou organisme militaire

YYY – exploitants d'aéronefs et organismes auxquels il n'est pas attribué, à titre exclusif, d'indicateur OACI à trois lettres

ZZZ – aéronefs en vol.

2.4 Les restrictions ci-après s'appliqueront à l'enregistrement des indicateurs à trois lettres :

a) Pour éviter tout conflit avec le signal RSFTA de début de message, on n'utilisera pas les combinaisons renfermant CZ ou ZC.

b) Pour éviter tout conflit avec le signal RSFTA de fin de message, on n'utilisera pas les combinaisons renfermant NN.

c) Les indicateurs PAN et SOS ne seront pas attribués.

d) Pour éviter toute confusion avec les codes des services de télécommunication, on ne devrait pas utiliser les combinaisons de trois lettres suivantes : QTA et SVC.

e) Pour éviter des problèmes potentiels d'acheminement sur le RSFTA :

i) aucun nouvel indicatif d'exploitant d'aéronefs ne sera inclus dans les séries Y et Z ;

ii) aucun nouvel indicatif ne sera attribué dans la série Y et dans les groupes ZAA à ZIZ, ZOA à ZUZ et ZYA à ZZY.

2.5 Les États qui appliquent le système de distribution prédéterminée des messages RSFTA devraient faire connaître à tous les États qui doivent leur adresser des messages RSFTA pour distribution prédéterminée les indicateurs à trois lettres à utiliser dans l'Adresse de ces messages. La liste de ces indicateurs ne figure pas dans le présent document.

Note.— Pour plus de détails, voir l'Annexe 10, Volume II, § 4.4.14.5, et l'Appendice 5 de l'Annexe 15 — Services d'information aéronautique.

3. Indicateurs téléphoniques

3.1 Les indicateurs téléphoniques des exploitants d'aéronefs peuvent faire partie des indicateurs d'appel radiotéléphonique des aéronefs, suivis de l'identification du vol, dans les communications radiotéléphoniques, conformément aux procédures OACI de radiotéléphonie (voir Annexe 10, Volume II, § 5.2.1.7.2). Exemple : « AEROFLOT 301 ».

3.2 Les règles ci-après seront appliquées à l'enregistrement des indicateurs téléphoniques :

- a) L'indicateur téléphonique devrait ressembler au nom de l'exploitant d'aéronefs, ou à sa fonction, et être distinct et dissemblable de tout autre indicatif téléphonique figurant dans le Doc 8585. Pour bien faire, il devrait assurer une corrélation entre l'indicateur à trois lettres, l'indicateur téléphonique et le nom de l'exploitant d'aéronefs, ou sa fonction (exemples : ARO – ARROW – Arrow Aviation ; RAJ – RAJI – Raji Airlines).
- b) Pour réduire la durée des transmissions, l'indicateur téléphonique devrait être bref et se composer, si possible, d'un mot de deux ou trois syllabes. Il ne devrait pas excéder deux mots.
- c) Les indicateurs à trois lettres ne peuvent pas être utilisés sous une forme phonétique comme indicateurs téléphoniques. Toutefois, les indicateurs téléphoniques de longue date (par exemple KLM ou TWA) peuvent être conservés, à condition qu'une représentation alphabétique acceptable soit utilisée (exemple : KAY-ELL-EMM).
- d) L'indicateur téléphonique devrait pouvoir être prononcé facilement et phonétiquement au moins dans l'une des langues suivantes : anglais, espagnol, français, russe.

Note.— Résolution des indicateurs phonétiquement semblables :

- 1) *Dans l'intérêt de la sécurité, les États et les exploitants d'aéronefs devraient élaborer des procédures simples pour détecter, signaler et éliminer les indicateurs d'appel qui, parce qu'ils ressemblent à d'autres indicateurs d'appel, peuvent créer une confusion ou des erreurs d'identification. Lorsque des difficultés attribuables à la similitude des indicateurs d'appel touchent l'indicateur téléphonique, l'administration de l'aviation civile responsable devrait assurer la coordination nécessaire pour résoudre le problème. Il faudra peut-être s'adresser à l'OACI pour demander un changement de l'un ou des deux indicateurs téléphoniques en cause. Lorsque les exploitants d'aéronefs relèvent d'États différents, les administrations de l'aviation civile en cause devront faire preuve de coopération.*
- 2) *Pour choisir le numéro d'identification du vol, il est recommandé d'appliquer les principes suivants :*
 - a) *les numéros de vol devraient être aussi brefs que possible et limités d'ordinaire à trois chiffres ;*
 - b) *les numéros de vol devraient être choisis en fonction des numéros de vol déjà utilisés par d'autres exploitants d'aéronefs dans les zones de contrôle envisagées ;*
 - c) *il faudrait utiliser si possible des numéros de vol ne se terminant pas par zéro ou cinq.*

PREÁMBULO

Este documento contiene designadores de empresas explotadoras de aeronaves, así como de entidades oficiales y de aviación internacional. Los designadores comprenden actualmente:

- a) designadores telegráficos de tres letras destinados para uso en el servicio internacional de telecomunicaciones aeronáuticas;
- b) designadores telefónicos de empresas explotadoras de aeronaves, así como de entidades oficiales y de servicios que exploten aeronaves, que pueden utilizarse según sea apropiado.

De acuerdo con una decisión del Consejo de la OACI, se aplican designadores de tres letras para todos los fines actuales, a partir del 25 de octubre de 1987. Este documento contiene detalles de los designadores de tres letras que se han reservado para ser utilizados por las empresas explotadoras de aeronaves, entidades oficiales y de servicios aeronáuticos a la fecha de la publicación.

Los designadores de tres letras pueden usarse a continuación del indicador de lugar como la quinta, sexta y séptima letras de los indicadores de destinatario, seguidos por la letra de relleno "X", o por una letra que represente un departamento o división dentro del organismo respectivo (véase el Anexo 10 — *Telecomunicaciones aeronáuticas*, Volumen II, 4.4.3.1.2) en la Dirección abreviada, Dirección, Procedencia y/o partes del Texto en los mensajes AFTN (no es preciso repetir la letra de relleno en el texto del mensaje). El designador de tres letras puede usarse asimismo en la identificación de aeronaves, tal como se hace en el plan de vuelo y en los mensajes afines (véanse los *Procedimientos para los servicios de navegación aérea — Gestión del tránsito aéreo* (PANS-ATM, Doc 4444)).

Para facilitar la labor de los remitentes de mensajes, el documento también incluye las direcciones postales y de telecomunicaciones (comercial y aeronáutica) de las entidades gubernamentales de aviación civil.

Nota.— Las direcciones de telecomunicaciones aeronáuticas de la Parte 4 incluyen los designadores de tres letras correspondientes y la letra de relleno "X", a menos que se indique lo contrario.

Se publicarán nuevas ediciones de este documento cuando sea necesario.

Las adiciones, supresiones, omisiones o discrepancias deben comunicarse al Secretario General de la OACI, 999 University Street, Montreal, Quebec, Canadá H3C 5H7.

REGLAS PARA EL REGISTRO O CAMBIO DE DESIGNADORES

1. Generalidades

1.1 Las solicitudes de registro o modificación de un designador de tres letras o designador telefónico, únicamente se tendrán en cuenta por la OACI cuando se reciban del Estado que tenga jurisdicción sobre la empresa explotadora de aeronaves, entidad oficial o servicio aeronáutico. Las solicitudes de esta índole deben dirigirse al Secretario General de la OACI.

1.2 No se registrará el mismo designador para más de una empresa explotadora de aeronaves, entidad oficial o servicio aeronáutico.

1.3 No se registrará más de un designador de tres letras o designador telefónico para cada empresa explotadora de aeronave, entidad oficial o servicio aeronáutico.

1.4 Cuando ya no se requiera un designador, deberá notificarse inmediatamente este hecho a la OACI. Todo designador que haya quedado libre no volverá a asignarse hasta que haya transcurrido por lo menos un período de 60 días.

1.5 Cada Estado contratante deberá examinar, por lo menos una vez al año, todos los designadores y la información correspondiente del Doc 8585 que le incumbe, y notificar a la OACI cualquier cambio que deba introducirse en este documento para ponerlo al día.

1.6 Las reglas para el registro o cambio de los designadores de tres letras y de telefonía son las siguientes.

2. Designadores de tres letras

2.1 Un designador de tres letras se registrará sólo a nombre de:

- a) empresas explotadoras de aeronaves dedicadas a operaciones de transporte aéreo que a juicio del Estado de jurisdicción tengan necesidad de un designador exclusivo;
- b) entidades y servicios gubernamentales que utilizan y/o suministran instalaciones y servicios de navegación aérea, comunicaciones y otros para la aviación civil internacional;
- c) organismos que no sean gubernamentales, que suministran servicios a la aviación civil internacional.

2.2 a) Los designadores de tres letras deben reflejar, en la mayor medida posible, el nombre de la empresa explotadora de aeronaves o su designador telefónico, o el servicio aeronáutico para los cuales se solicitan.

b) Los designadores para organismos gubernamentales que suministran instalaciones y servicios a la aviación civil se atribuyen solamente en la serie Y.

c) Los designadores para organismos gubernamentales que suministran servicios de tránsito aéreo se atribuyen solamente en la serie Z (salvo ZXA a ZXZ).

d) Los siguientes designadores se reservan para que los Estados contratantes los asignen a entidades y servicios nacionales, y no serán asignados por la OACI para otros usos. El Estado puede seleccionar y utilizar cualquiera de ellos sin referir el asunto a la OACI:

Y E Y, Y G Y, Y H Y, Y I Y, Y J Y, Y K Y, Y Q Y, Y R Y, Y U Y, Y V Y y grupos Z X A a Z X Z.

2.3 Los siguientes designadores de tres letras cuando aparezcan en la Dirección abreviada, la Dirección y/o la Procedencia de un mensaje AFTN, deben ir complementados con alguna otra identificación de la empresa explotadora de aeronaves, entidad oficial o servicio aeronáuticos en cuestión, al principio del Texto del mensaje (véase el Anexo 10, Volumen II, 4.4.3.1.2.1, 4.4.3.1.2.2).

Y X Y – servicio u organismo militar

Y Y Y – empresas explotadoras de aeronaves y organismos a los que no se ha asignado con carácter exclusivo un designador OACI de tres letras

Z Z Z – aeronaves en vuelo.

2.4 Se aplicarán las siguientes restricciones para el registro de designadores de tres letras:

- a) para evitar conflicto con la señal de comienzo de mensaje AFTN, no se utilizarán combinaciones con CZ o ZC;
- b) para evitar conflicto con la señal de fin de mensaje AFTN, no se utilizarán combinaciones con NN;
- c) no se asignarán PAN ni SOS;
- d) para evitar confusión con los códigos de servicio de comunicaciones, no deben utilizarse las siguientes combinaciones de tres letras: QTA y SVC;
- e) para evitar posibles problemas de encaminamiento AFTN:
 - i) ninguna atribución ulterior de designadores de empresas explotadoras de aeronaves se incluirá en las series Y y Z; y
 - ii) ninguna atribución ulterior de cualesquiera designadores se incluirá en la serie Y ni en los grupos ZAA a ZIZ, ZOA a ZUZ y ZYA a ZZY.

2.5 Los Estados que hayan puesto en aplicación el sistema de distribución predeterminada para los mensajes AFTN deben informar a cada uno de los Estados de los cuales han de recibirse dichos mensajes acerca de los designadores de tres letras que han de usarse al dirigirlos. Estos designadores de tres letras no figuran en el presente documento.

Nota.— Para los detalles, véase el Anexo 10, Volumen II, 4.4.14.5 y el Apéndice 5 al Anexo 15 — Servicios de información aeronáutica.

3. Designadores telefónicos

3.1 Los designadores telefónicos de las empresas explotadoras de aeronaves pueden utilizarse como parte del distintivo de llamada radiotelefónico de la aeronave, seguido de la identificación del vuelo en las comunicaciones radiotelefónicas, de conformidad con los procedimientos radiotelefónicos de la OACI (véase el Anexo 10, Volumen II, 5.2.1.7.2). Ejemplo: "AEROFLOT 301".

3.2 Para el registro de los designadores telefónicos se aplicarán las siguientes reglas:

- a) El designador telefónico debería parecerse al nombre de la empresa explotadora de aeronaves o a la función que ésta desempeña, y ser distinto y diferente de todo otro designador telefónico del Doc 8585. Idealmente, debería existir una correlación entre el designador de tres letras, el designador telefónico y el nombre de la empresa explotadora de aeronaves o su función (ejemplos: ARO – ARROW – Arrow Aviation, RAJ – RAJI – Raji Airlines);
- b) con el fin de reducir la longitud de la transmisión, el designador telefónico debería ser breve, constituido en la medida de lo posible por una palabra de dos o tres sílabas. El designador no debería rebasar las dos palabras;
- c) los designadores de tres letras no pueden utilizarse en forma fonética como designadores telefónicos. No obstante, pueden mantenerse los designadores telefónicos utilizados desde hace largo tiempo (tales como KLM o TWA), siempre que se utilice una representación alfabética aceptable (ejemplo: KAY-ELL-EMM); y
- d) el designador telefónico debe poder pronunciarse fácilmente y adaptarse fonéticamente a uno, por lo menos, de los siguientes idiomas: español, francés, inglés y ruso;

Nota.— Solución de los casos en que los distintivos de llamada tengan un sonido similar:

- 1) *En interés de la seguridad, los Estados y empresas explotadoras de aeronaves deberían elaborar procedimientos simples para detectar, notificar y eliminar aquellos distintivos de llamada que, por su similitud a otros distintivos de llamada, puedan ocasionar confusiones o errores en identificación. Cuando las dificultades se deban a la semejanza entre el distintivo de llamada y el designador telefónico, la administración de aviación civil pertinente debería coordinar los esfuerzos para resolver el problema. Para ello, tal vez sea preciso presentar a la OACI una solicitud a fin de que se cambien uno o los dos designadores telefónicos conflictivos. Se precisa la cooperación de las administraciones de aviación civil en el caso de empresas explotadoras de aeronaves de Estados distintos.*
- 2) *Al seleccionar el número de identificación de vuelo, se recomienda lo siguiente:*
 - a) *los números de vuelo deberían ser lo más cortos posibles y, habitualmente, estar limitados a tres cifras;*
 - b) *los números de vuelo deberían seleccionarse teniendo en cuenta los números de vuelo que ya utilizan otras empresas explotadoras en los entornos de control previstos; y*
 - c) *los números de vuelo, siempre que sea factible, deberían utilizarse con cifras que no terminen en cero ni en cinco.*

ПРЕДИСЛОВИЕ

Данный документ содержит условные обозначения летно-эксплуатационных агентств, полномочных органов и служб, связанных с международной авиацией. Условные обозначения в настоящее время состоят из:

- а) трехбуквенных условных обозначений, предназначенных для использования международными службами авиационной электросвязи;
- б) используемых при необходимости телефонных условных обозначений летно-эксплуатационных агентств, полномочных органов и служб, занимающихся эксплуатацией воздушных судов.

В соответствии с решением Совета ИКАО трехбуквенные условные обозначения применяются для всех текущих целей начиная с 25 октября 1987 года. В настоящем документе содержится подробное описание трехбуквенных условных обозначений, которые на момент публикации документа зарезервированы для использования летно-эксплуатационными агентствами, авиационными полномочными органами и службами.

Трехбуквенные условные обозначения могут использоваться после указателя местоположения в качестве пятой, шестой и седьмой букв индексов адресата, за которыми следует заполняющая буква "X" или буква, обозначающая отдел или подразделение организации-адресата (см. пункт 4.4.3.1.2 тома II Приложения 10 "Авиационная электросвязь"), в сокращенном адресе, адресе, источнике и/или частях текста сообщений AFTN (нет необходимости повторять заполняющую букву в текстовой части сообщения). Трехбуквенное условное обозначение может также быть использовано в опознавательном индексе воздушного судна, как принято в плане полета и соответствующих сообщениях (см. *Правила аэронавигационного обслуживания. Организация воздушного движения* (PANS-ATM, Doc 4444)).

Для удобства составителей сообщения этот документ включает также почтовые и телекоммуникационные адреса (коммерческие и авиационные) правительственных полномочных органов гражданской авиации.

Примечание. Авиационные телекоммуникационные адреса, находящиеся в разделе 4, включают, если нет других указаний, соответствующие трехбуквенные условные обозначения и заполняющую букву "X".

Новые издания данного документа публикуются время от времени.

О любых дополнениях, исключениях, пропусках или противоречиях следует сообщать Генеральному секретарю по адресу: ИКАО, 999 University Street, Montréal, Quebec, Canada H3C 5H7.

ПРАВИЛА РЕГИСТРАЦИИ ИЛИ ВНЕСЕНИЯ ИЗМЕНЕНИЙ В УСЛОВНЫЕ ОБОЗНАЧЕНИЯ

1. Общие положения

1.1 Просьбы о регистрации или внесении изменений в трехбуквенное или телефонное условное обозначение принимаются ИКАО только в том случае, когда они получены от государства, обладающего юрисдикцией над соответствующими летно-эксплуатационными агентствами, авиационными полномочными органами или службами. Подобные просьбы должны направляться Генеральному секретарю ИКАО.

1.2 Одно и то же условное обозначение не подлежит регистрации для более чем одного летно-эксплуатационного агентства, авиационного полномочного органа или службы.

1.3 Для каждого летно-эксплуатационного агентства, полномочного авиационного органа или службы будет регистрироваться не более одного трехбуквенного или телефонного условного обозначения.

1.4 Если обозначение более не является необходимым, то об этом следует немедленно информировать ИКАО. Любое подобное обозначение, высвобожденное таким образом, не будет перераспределено до истечения периода по меньшей мере 60 дней.

1.5 Каждое Договаривающееся государство должно периодически, по крайней мере ежегодно, производить пересмотр всех условных обозначений и соответствующей информации, содержащейся в документе Doc 8585, за которую оно несет ответственность, и сообщать ИКАО о любых изменениях, которые необходимо внести в данный документ в целях приведения его в соответствие с существующим положением.

1.6 Ниже приводится описание правил, определяющих порядок регистрации или внесения изменений в трехбуквенные и телефонные условные обозначения.

2. Трехбуквенные условные обозначения (применяются с 25 октября 1987 года)

2.1 Трехбуквенное условное обозначение регистрируется только для:

- а) летно-эксплуатационных агентств, которые осуществляют авиатранспортные перевозки и, по мнению государства юрисдикции, нуждаются в условном обозначении с правом исключительного пользования;
- б) правительственных полномочных органов и служб, которые используют и/или предоставляют аэронавигационные средства, средства связи и прочие средства обслуживания для международной гражданской авиации;

- в) организаций, кроме правительственных организаций, которые предоставляют обслуживание для международной гражданской авиации.

2.2 а) Трехбуквенное условное обозначение должно, по возможности, максимально точно отражать название или телефонное условное обозначение летно-эксплуатационного агентства или авиационной службы, для которых оно предназначено.

- б) Условные обозначения для правительственных организаций, которые предоставляют средства и обслуживание для гражданской авиации, распределяются только в серии У.
- в) Условные обозначения для правительственных организаций, предоставляющих обслуживание воздушного движения, распределяются только в серии Z (за исключением с ZXA по ZXZ).
- г) Следующие условные обозначения зарезервированы для внутреннего распределения национальными администрациями Договаривающихся государств соответствующим органам или службам и не используются ИКАО для других назначений. Государство может выбирать и использовать любые условные обозначения из этого числа без передачи вопроса в ИКАО:

УЕУ, УГУ, УНУ, УИУ, УЈУ, УКУ, УQU, УRY, УУУ, UVU и группы с ZXA по ZXZ.

2.3 Следующие трехбуквенные условные обозначения, указываемые в сокращенном адресе, адресе и/или источнике сообщения AFTN, должны сопровождаться дополнительным опознавательным индексом соответствующего летно-эксплуатационного агентства, авиационного полномочного органа или службы, располагаемым в начале текстовой части сообщения (см. пункты 4.4.3.1.2.1 и 4.4.3.1.2.2 Приложения 10, том II):

УХУ – военная служба или организация;

УУУ – летно-эксплуатационные агентства и организации, которым не присвоено трехбуквенное обозначение ИКАО с правом исключительного пользования;

ZZZ – воздушное судно, находящееся в полете.

2.4 При регистрации трехбуквенных условных обозначений будут применяться следующие ограничения:

- а) во избежание противоречия с сигналом начала сообщений AFTN не будут использоваться сочетания с CZ и ZC;
- б) во избежание противоречия с сигналом конца сообщения AFTN не будут использоваться сочетания с NN;
- в) сокращения PAN и SOS не будут присваиваться;
- г) во избежание путаницы со служебными кодами связи не должны использоваться следующие трехбуквенные сочетания: QTA и SVC;
- д) во избежание возможных проблем при маршрутизации сообщений AFTN:
 - и) в сериях У и Z в дальнейшем не будут распределяться условные обозначения для летно-эксплуатационных агентств; и

- ii) в серии У и в группах с ZAA по ZIZ, ZOA по ZUZ и ZYA по ZZY в дальнейшем не будут распределяться какие-либо условные обозначения.

2.5 Государства, которые ввели систему predeterminedной рассылки сообщений AFTN, должны информировать каждое государство, из которого поступают сообщения AFTN для predeterminedной рассылки, о трехбуквенных условных обозначениях, используемых в целях адресации таких сообщений. Эти условные обозначения не перечисляются в этом документе.

Примечание. Для получения более подробной информации см. пункт 4.4.14.5, том II Приложения 10, а также добавление 5 к Приложению 15 "Службы аэронавигационной информации".

3. Телефонные условные обозначения

3.1 Телефонные условные обозначения летно-эксплуатационных агентств могут использоваться при радиотелефонной связи в качестве части позывного воздушного судна, за которой следует обозначение рейса в соответствии с правилами радиотелефонной связи ИКАО (см. пункт 5.2.1.7.2, том II Приложения 10). Например: "AEROFLOT 301".

3.2 При регистрации телефонных условных обозначений будут применяться следующие правила:

- a) телефонное условное обозначение должно быть похожим на название летно-эксплуатационного агентства или его функцию и должно отличаться от любого другого телефонного условного обозначения, приведенного в документе Doc 8585. В принципе оно должно отражать взаимосвязь между трехбуквенным условным обозначением, телефонным условным обозначением и названием летно-эксплуатационного агентства или его функцией (например, ARO – ARROW – Arrow Aviation; RAJ – RAJI – Raji Airlines);
- b) в целях уменьшения длины передачи сообщения телефонное условное обозначение должно быть кратким и, по возможности, состоять из одного двух- или трехсложного слова. Оно не должно состоять более чем из двух слов;
- c) трехбуквенные условные обозначения не могут использоваться в фонетической форме как телефонные условные обозначения. Однако устоявшиеся телефонные условные обозначения (такие, как KLM или TWA) могут быть сохранены при условии передачи их фонетического звучания буквами алфавита (например, KEЙ-ЭЛ-ЭМ); и
- d) телефонные условные обозначения должны быть легко произносимыми по крайней мере на одном из следующих языков: английском, испанском, русском, французском.

Примечание. Решение проблемы сходных по звучанию позывных:

- 1) *В интересах безопасности полетов государства и летно-эксплуатационные агентства должны разработать несложные процедуры для обнаружения, представления уведомлений и устранения таких позывных воздушного судна, которые в связи со схожестью по звучанию с другими позывными могут привести к путанице или неправильному опознаванию воздушного судна. Когда трудности, возникающие при наличии сходных по звучанию позывных, касаются телефонных условных обозначений, соответствующие полномочные органы гражданской авиации должны координировать деятельность по решению такой проблемы. Для этого может потребоваться представить в ИКАО просьбу о внесении изменений в одно или оба создающие трудности телефонные условные обозначения. Сотрудничество полномочных органов гражданской авиации необходимо в тех случаях, когда условные обозначения относятся к летно-эксплуатационным агентствам разных государств.*
- 2) *При выборе опознавательного номера рейса рекомендуется руководствоваться следующими правилами:*
 - a) *номера рейсов должны быть, по возможности, максимально короткими и, как правило, состоять не более чем из трех цифр;*
 - b) *номера рейсов должны выбираться с учетом номеров рейсов, уже используемых другими эксплуатационными агентствами в данном контролируемом воздушном пространстве; и,*
 - c) *когда это практически возможно, не должны использоваться номера рейсов, оканчивающиеся на ноль или пять.*

GLOSSARY / GLOSSAIRE / GLOSARIO / СЛОВАРЬ ТЕРМИНОВ

The following list includes the names of countries appearing in Parts 1 and 4 which differ in English, French and Spanish. The spelling is in the language chosen by the State for correspondence with ICAO, i.e. English, French or Spanish.

La liste ci-dessous donne les pays figurant dans les 1^{re} et 4^e Parties dont les noms diffèrent en français, en anglais et en espagnol. Les noms qui figurent sont donnés dans la langue choisie par l'État pour correspondre avec l'OACI, c'est-à-dire, le français, l'anglais ou l'espagnol.

La lista que aparece a continuación comprende los nombres de los países que figuran en las Partes 1 y 4 que difieren en español, francés e inglés. La ortografía indicada es la elegida por el Estado para su correspondencia con la OACI, es decir, en español, francés o inglés.

В приведенный ниже перечень включены названия стран, упоминающихся в частях 1 и 4, в которых язык отличается от английского, французского и испанского. Произношение дается на языке, который государство выбрало для переписки с ИКАО, т.е. на английском, французском или испанском.
